

January 3 - 5
Santiago - Chile

Day 0: 01.02.2018 (NetSciX School)

09:30	Registration
10:00	Eduardo Graells-Garrido - Network Visualization in Python
10:30	Coffee
11:00	Eduardo Graells-Garrido - Network Visualization in Python
12:30	Lunch
15:00	Bruno Gonçalves - Deep Learning From Scratch in Python
15:30	Coffee
16:00	Bruno Gonçalves - Deep Learning From Scratch in Python
18:00	Beer at Patio Bellavista

Day 1: 01.03.2018

08:30	Registration
09:40	Opening remarks Intro: Bruno Gonçalves (JP Morgan), Leo Ferres (IDS UDD, TID) Welcome: Ana Karina Ulloa, Director of Human Resources, Telefónica
10:00	Keynote 1: Lada Adamic (Facebook) Title: How Cascades Grow Introducing: Loreto Bravo (IDS, UDD)
11:00	Coffee
11:30	Session 1: Social Networks I (15+5) Chair: Jorge Fábrega (CICS, UDD) Tomás Mussi Reyero, José Ignacio Alvarez-Hamelin, and Mariano Gastón Beiró. <i>Topic-based study of a Twitter political network</i> Janani Kalyanam, Mauricio Quezada, Barbara Poblete, and Gert Lanckriet. <i>Prediction and characterization of high-activity events in social media triggered by real-world news</i> Claudio Villegas and Cristian Huepe. <i>Emergence of echo chambers on an adaptive voter model with continuous opinions</i> Sebastian Diaz, Loreto Bravo, Tamas David-Barrett, Carlos Rodriguez-Sickert, Isabel Behncke, Janos Kertesz and Anna Rotkirch. <i>Cultural differences in communication across the life course</i>
12:50	Lunch & Posters
14:00	Keynote 2: Ricardo Baeza-Yates (NTENT, Northeastern) Title: Explainable AI Introducing: Ciro Cattuto (ISI Foundation)
15:00	Coffee
15:30	Session 2: Network Applications (15+5) Chair: Diego Caro (IDS, UDD) Miguel R. Guevara, Dominik Hartmann, Luciano Digiampietri and Esteban

	Fernandez. <i>Mapping the scientific output of Brazilian institutions</i> Elbert Macau and Antonio Mario Ramos. <i>Detecting causal relations from real data experiments by using recurrence</i> Jaroslav Jankowski, Boleslaw Szymanski, Przemysław Kazienko, Radosław Michalski and Piotr Bródka. <i>Probing limits of information spread with sequential seeding</i> Heetae Kim, Sang Hoon Lee, Eduardo Álvarez-Miranda, Jörn Davidsen, David Olave Rojas and Seung-Woo Son. <i>Modular structures of power grids affect synchronization stability: a case study in Chile</i>
16:50	Coffee
17:10	Session 3: Social Networks II (15+5) Chair: Yessica Herrera (CICS, UDD) Tamas David-Barrett. <i>Demographic Transition reduces social trust</i> Kayla de La Haye and George Vega Yon. <i>Small network statistics for the network science of teams</i> Charlotte James, Luca Pappalardo, Alina Sirbu and Filippo Simini. <i>Prediction of next career moves from scientific profiles</i> Barbara Poblete, Jheser Guzman, Jazmine Maldonado Flores and Felipe Tobar. <i>Robust Detection of Extreme Events Using Twitter: Worldwide Earthquake Monitoring</i>
18:50	Keynote 3: Janos Kertesz (CEU), open to the public (in English) Title: Analyzing and modeling the complex network of social interactions Introducing: Carlos Rodríguez Sickert (CICS, UDD)

Day 2: 01.04.2018

09:50	Opening remarks Intro: Bruno Gonçalves (JP Morgan), Leo Ferres (IDS UDD, TID) Welcome: Eric Ancelovici (Director TID, and CDO, Telefónica)
10:00	Keynote 1: Francesco Bonchi (ISI Foundation) Title: Distance-based connectors and community search Introducing: Cristian Candia (CICS, UDD)
11:00	Coffee
11:30	Session 1: Network Models and Methods I (15+5) Chair: Gabriel Cwilich, Yosef Kornbluth and Sergey Buldyrev. <i>Failures in networks and their dependence with degree distribution</i> Kyosuke Tanaka and Agnes Horvat. <i>Networking Strategies and efficiency in human communication networks</i> Vaiva Vasiliauskaite and Tim Evans. <i>Antichain partitioning of directed acyclic graphs with applications in centrality</i> Geoff Boeing. <i>Street network patterns, orientation, and entropy around the world</i>
12:50	Lunch & Posters
14:00	Keynote 2: Loreto Bravo (Institute of Data Science, UDD) Title: Mobile Data for Social Good Introducing: Tamas David-Barrett (Oxford University)
15:00	Coffee
15:30	Session 2: Economic and Urban Networks (Economic) I (15+5) Chair: Eduardo Graells-Garrido (IDS, UDD) Carlos Sarraute and Martin Minnoni. <i>A brief survey of Data Science techniques applied to the analysis of bank and mobile phone datasets</i> Irena Vodenska, Hideaki Aoyama and Alexander Becker. <i>Network approach to understanding vulnerabilities of financial systems</i>

	Vanessa Peña-Araya, Mauricio Quezada, Barbara Poblete and Denis Parra. <i>Gaining Historical and International Relations Insights from Social Media</i>
16:50	Coffee
17:10	Session 3: Mapping, Prediction, and Causality (15+5) Chair: Cristian Candia-Castro Vallejos (CICS, UDD) Samuel Fraiberger, Roberta Sinatra, Christoph Riedl, and Laszlo Barabasi. <i>Quantifying reputation and success in art</i> Boris Sotomayor-Gomez and Horacio Samaniego. Defining urban boundaries from ICT data: <i>Merging spectral network analysis and urban scaling laws to unveil urban dynamics</i> Douglas S. R. Ferreira, Jennifer R. S. da Conceicao, Paulo Sergio L. de Oliveira Junior, Andres R. R. Papa, and Ronaldo Menezes. <i>Towards evidence of long-range correlations in shallow seismic activities</i> Charlotte James, Luca Pappalardo, Alina Sirbu and Filippo Simini. <i>Prediction of next career moves from scientific profiles</i>
18:50	Keynote 3: Noshir Contractor (Northwestern University), open to the public (in English) Title: Relational Analytics: Transforming the future of work Introducing: Andrés Leiva (IDS, UDD)

Day 3: 01.05.2018

09:50	Opening remarks Intro: Bruno Gonçalves (JP Morgan), Leo Ferres (IDS UDD, TID)
10:00	Keynote 1: Raissa D'Souza Title: Collective behaviors at three scales: nanoscale oscillators, interdependent infrastructure, and macaque societies Introducing: Mariano Beiró (UBA, Argentina)
11:00	Coffee
11:30	Session 1: Social Networks III (15+5) Chair: Mariano Beiró (Universidad de Buenos Aires) Diego Gómez-Zarà, Matthew Paras, Aaron Schechter, Leslie A. DeChurch and Noshir S. Contractor. <i>Using relational event modeling for understanding team formation mechanisms in teams assembled online</i> Ignacio Toledo and Jorge Fábrega. <i>Research topic similarity for link prediction in scientific collaboration networks</i> Yerka Freire-Vidal and Eduardo Graells-Garrido. <i>Quantifying Chilean attitudes toward immigration using Twitter</i> John Harvey, Andrew Smith, and James Goulding. <i>An exploratory network analysis of balance, reciprocity, and assortativity in a P2P food sharing network</i>
12:50	Lunch & Posters
14:00	Keynote 2: Daniela Paolotti (ISI Foundation) Title: Digital traces and participation for forecasting the flu Introducing: Francisca Varela (IDS, UDD)
15:00	Coffee
15:30	Session 2: Dynamics and Spreading Process I (15+5) Chair: Alberto Aleta, Guilherme Ferraz de Arruda, and Yamir Moreno. <i>Realistic modeling of disease spreading in multilayer networks</i>

	Antoine Allard, Benjamin Althouse, Laurent Hebert-Dufresne and Samuel Scarpino. <i>The risk of sustained sexual transmission of Zika is underestimated</i> Marcin Waniek, Aamena Alshamsi, and César Hidalgo. <i>Bursting the filter bubble: promoting information flows in a polarized world</i> Diego Fregolent Mendes de Oliveira and Kevin S. Chan. <i>Competition and spreading of low and high quality information in online social networks</i>
16:50	Coffee
17:10	Session 3: Economic and Urban Networks (Urban) (15+5) Chair: Horacio Samaniego (U Austral de Chile) Paula Vásquez-Henríquez, Eduardo Graells-Garrido, Diego Caro. <i>Emojis on the Go: Transport Perception using Social Media</i> Dmitry Paranyushkin. InfraNodus. <i>A text network visualization tool for cognitive stimulation</i> Hardik Rajpal, Joshua Southern, Pedro A.M. Mediano, Fernando Rosas, and Henrik Jensen. <i>Quantifying “togetherness” in a musical concert via effective EEG networks</i> Fernando Rosas, Pedro Mediano, Pablo Padilla, and Henrik Jensen. <i>From Shannon to Bach: revealing emergent interdependencies in classical music scores</i>
18:50	Keynote 3: Yamir Moreno (Northwestern University), open to the public (in English) Title: Introducing: Leo Ferres (IDS, UDD)
20:00	Best paper & best poster awards, closing remarks
20:30	Dinner: TBA

Trip (on the 6th, for those interested)

We are also planning to take a day trip to one of the following places. This will be on your own expense, but we'll organize if there's enough interest. These are the three options we were entertaining.

1) Valparaiso (tours Cerro alegre and Cerro Concepcion, boat trip, and typical food) (about 1 hour and 40 minutes each way)

2) Pomarie (Chilean crafts + the best pastel de choclo (corn cake) ever) + Pichilemu (beach) (about 3 hours each way)

3) Cajon del Maipo + concha y toro vineyard (about one hour each way)
